

## CCFR Clothing Size Chart

To measure your garments, please lay the item on a flat surface and measure across the chest directly under the armpits, where the sleeves attach. Photos are included as examples.

If your CCFR clothing is significantly smaller or larger than the measurements in this size chart, please send an email to [shop@firearmrights.ca](mailto:shop@firearmrights.ca) including a photo of the item with the measurement like the examples below.

\*\* All garments are handcrafted, which may result in slight sizing variations. Please allow for 0.5" difference above or below listed measurements.
